

BCR[®] Cleanroom Face Masks

People are a significant source of contamination in any critical manufacturing process. Berkshire masks are designed to protect your cleanroom or controlled environment from human contamination. Berkshire masks provide superior filtration efficiency while allowing long wearing comfort for operators. With a range of sizes, wear styles and packaging configurations available, Berkshire's BCR[®] Cleanroom Face Masks ensure you can find the right combination of performance, fit and comfort for your application. Berkshire also has the capability to design and produce custom configurations for any specialized application.

BCR[®] Face Mask 180mm with knitted Earloops

BM180ELK50B (Bulk packaged) / BM180ELK25I (Individually packaged)

- Filter Media: Meltblown polypropylene provides superior particle and bacterial filtration efficiency
- Outer layer: Blue polypropylene spunbond identifies the outside of the mask
- Inner layer: White polypropylene spunbond is smooth and non-irritating
- Nosepiece: Fully enclosed vinyl covered steel is adjustable to reduce "blow by"
- Earloops: Knitted nylon spandex are soft and comfortable for long wear
- Ultrasonic bonding reduces contamination and outgassing
- Bulk packaged, 50 masks per pack
